

PLAY WITH HART®
HIGH ACCELERATION REDUCTION TECHNOLOGY

ALI KRIEGER
World Cup Champion

HALO™

PROTECTIVE HEADGEAR

Reduces Acceleration. Reduces Force. Reduces Risk.

The ultimate in head protection for soccer, 7on7, flag football & women's lacrosse. UNEQUAL HALO™ includes a coated aramid fabric and other advanced materials that together handle blunt force trauma and impact shock differently and better than typical plastics and foams.

- Provides 360° impact protection
- Engineered with moisture-wicking and antimicrobial fabrics for sweat and odor management
- Complies with FIFA LAW4 & tested to ASTM F2439-11
- Low profile comfort

UNEQUAL.com

UNEQUAL® REDUCES CONCUSSION RISK
It's an advanced, military-grade composite which reduces acceleration, absorbs and disperses impact force.

First developed for the military, UNEQUAL was adapted for sports in our acclaimed line of protective supplemental headgear. Serious protection followed for the body. Today, there are over 100 patents on this powerful technology.

Better Play

Unequal empowers you to perform at a higher level. Protection matters!

Greater Confidence

Unequal protection gives you a competitive edge.

Comfort

The contoured full coverage design fits snugly but comfortably against the head.

In Soccer

Does not effect header rebound speed or control with proper heading technique.

Only 7mm Thin

Great look, sleek design.

DISCLAIMER: Unequal reduces concussion risk, compared to no head protection. Leading medical doctors, PhD's and scientists have concluded that a reduction in acceleration correlates with a reduction in concussion risk. Any player in any activity, game, or sport, can sustain a head injury even with head protection, and that no helmet, pad or Unequal product can prevent concussions or eliminate the risk of these injuries.
